

Online Giving Through Secure Give

Learn how to set up online giving for our regular contribution, Imagine, or missions.

First Time Set Up

Go to **mrcc.org** - select "Give" in the navigation menu.

Select "General Fund," "Imagine," or "Missions."

You will be directed to the Secure Give site. Click the gray "Sign-up" button in the upper right hand corner to create an account. Fill out the information requested.

You will be redirected to the start page once your new account is set up. Select where you would like to give by hitting the gray "select" button, then click the "click to donate" circle.

Fill in your amount and select "One Time Donation" or "Recurring Donation."

Follow the steps to finish the set up.

You can also do this through the MRCC App by selecting "Give" in the menu. You will then be directed to the Secure Give site to make your donation.

Manage Recurring Donations

On a PC

Log in to Secure Give.

In the top right corner, click the "My Account" drop-down menu.

Click "My Recuring Transactions."

All recurring donations are listed, and you can click on each transaction.

Use the icons in the right corner, a pencil to edit and a trash can to delete.

If you choose to edit, you will be redirected to the main page to choose if you'd like to change where the donation goes to. Once you pick, you will be prompted to change the amount, and then the date each transaction will occur.

Mobile Phone

Log In to Secure Give.

In the upper left hand corner, select the icon that looks like lines in a box.

Select "My Recurring Transactions."

Follow the last three steps in "On a PC" to manage your recurring donations.
